

FLORIDA CONFERENCE
ON
CHILD HEALTH PSYCHOLOGY

Sponsored By
The Department of Clinical and Health Psychology
University of Florida
The Society of Pediatric Psychology
The Division of Health Psychology/
American Psychological Association

Gainesville, Florida
April 22-24, 1993

-- WELCOME--
TO THE FOURTH FLORIDA CONFERENCE ON CHILD HEALTH PSYCHOLOGY

We would like to take this opportunity to welcome each of you to the Fourth Florida Conference on Child Health Psychology. We hope that you will find the conference to be an informative one and your stay in Gainesville enjoyable. To increase the likelihood of both there are several aspects of the conference that are worthy of note.

First, on Thursday and Friday paper sessions will begin at 8:30 A.M. (9:00 on Saturday). Each morning's paper session will be preceded by an informal discussion hour which deals with topics such as planning regional conferences, training, and international pediatric psychology. To facilitate your ability to concentrate at this early hour, coffee and danish will be available for those attending discussion hours as well as for others prior to the beginning of the morning paper sessions. In addition, a complementary lunch will be provided for all registrants during the conference poster sessions which are scheduled during the noon hours on Thursday (April 22) and Friday (April 23).

To complement the more content oriented aspects of the conference, we have scheduled several social activities which we hope will add to your enjoyment and facilitate attendees and participants getting to know one another. These include a pre-conference reception on Wednesday April 21st (7:00 to 10:00 PM) at the University Centre Hotel. There will be a Reception at the home of Suzanne Johnson (Archer, Florida) from 5:30 - 8:30 on Thursday April 22nd (transportation will be by bus; schedules for departure and return are provided in the program). There will also be a Social at the Thomas Center (Gainesville) from 6:30 - 9:00 on Friday April 23rd (again bus schedules are included in the program). Finally, after the social at the Thomas Center there will be a video slide presentation of the SPP China Trip. This will be held in the Ballroom of the University Centre Hotel.

For those wishing to obtain psychology continuing education credit for attendance at each of the five paper sessions and the Frontiers in Pediatric Psychology address, a Continuing Education table has been set up for your convenience. To receive CE credit for a particular session, it will be necessary to sign an attendance sheet for that session and pick up a session evaluation form as you enter. Immediately following the session, return the completed evaluation form to the CE table to obtain a CE certificate for that session.

Again, we hope each of you will find the conference to be informative and your stay with us enjoyable. If, during the conference, you have any additional questions that are not answered here or in the program simply ask any member of the Conference Planning Committee. These individuals can be identified by the small alligator (This is Florida you know!) attached to their conference name tags.

James H. Johnson
Co-Chair Conference Planning Committee

ACKNOWLEDGMENTS

No conference can take place without the support, financial and otherwise, of many individuals and groups. This one is no exception. In this regard we must acknowledge the direct financial support of the sponsors, the University of Florida, Department of Clinical and Health Psychology, the Society of Pediatric Psychology and the Division of Health Psychology of the American Psychology Association. Apart from this sort of tangible support the encouragement and support provided by Dr. Nathan W. Perry, Chair of the Department of Clinical and Health Psychology, must also be noted.

The names of those faculty and students who served on various conference-related committees and who did the work necessary to make the conference a reality are listed below. In addition, the administrative and secretarial support and overall helpfulness of Peggy Bessinger, Crystal Lee, Dot Padgett, and Sharon Short (Department of Clinical and Health Psychology) is gratefully acknowledged.

CONFERENCE PLANNING COMMITTEE

James H. Johnson and Suzanne Bennett Johnson, Co-Chairs, Stephen Boggs, Sheila Eyberg, Gary Geffken, Michael Perri, James Rodrigue

PROGRAM COMMITTEE

James H. Johnson and Suzanne Bennett Johnson, Co-Chairs, Stephen Boggs, Lynn Covitz, Keith Ewell, Sheila Eyberg, Gary Geffken, Jacquelin Goldman, Connie Henson, Kathy Moore, Michael Perri, James Rodrigue, George Royal, Laureen Turner

SOCIAL/RECREATION COMMITTEE

Suzanne Bennett Johnson and Marika Spevack, Co-Chairs, John-Paul Abner, Arista Beasley, Judy Clark, Andy Colvin, Lynn Covitz, Connie Henson, Russell Hoffman, Wendy Kubar, Julie Lucas, Kathy Moore, Delia Olufokumbi, Karen Rezai

LOCAL ARRANGEMENTS COMMITTEE

Stephen Boggs, Chair, Illana Albanese, Dan Edwards, Keith Ewell, Jacquelin Goldman, Tanya Johnson, Susannah Kury, Tricia Park, Ann Pitel, George Royal, Tara Spevack, Laureen Turner, Martin Ward

CONTINUING EDUCATION AND EVALUATION

Sheila Eyberg and James Rodrigue, Co-Chairs, Janet Bessmer, Vikki Gaskin-Butler, Eileen Fennell, Carol Lewis, Cyd Strauss

Thanks are also due Gary Geffken for help with conference publicity.

THE FOURTH FLORIDA CONFERENCE ON CHILD HEALTH PSYCHOLOGY
Gainesville, Florida
April 22-24, 1993

 ** WEDNESDAY APRIL 21, 1993 **
 ** PRE-CONFERENCE RECEPTION - 7:00 PM till 10:00 PM. **
 ** University Centre Hotel (11th Floor) **

THURSDAY APRIL 22, 1993

7:30 - 8:30: SPP DISCUSSION HOUR: Planning Regional Conferences (Ballroom)
Chair: Linda Hurley - Fort Worth Pediatrics

(MORNING PAPER SESSION - BEGINNING AT 8:30)

INTRODUCTION: James H. Johnson - Department of Clinical and Health
 Psychology, University of Florida
 Suzanne Bennett Johnson - President, Society of
 Pediatric Psychology
 Barbara Melamed - President-Elect, APA Division of Health
 Psychology

ASSESSMENT AND INTERVENTION IN PEDIATRIC PSYCHOLOGY

TOPIC CHAIR: Suzanne Bennett Johnson - University of Florida.

Assessing the relationship between common child behavior problems and psychopathology: The possible influence of Berkson's bias - Patrick C. Friman, Father Flanagan's Boy's Home and Creighton University School of Medicine.

Teacher and parent reports of children's behavior problems one and six months post-injury - Linda Abetz and Donald Wertlieb, Tufts University.

Pediatric evaluation of office activity levels in children with ADHD - Nancy Davis, Deborah Poteet-Johnson, Robert Lyman, and Paul Frick, University of Alabama.

-COFFEE BREAK

Individualized behavioral feeding intervention with preterm infants fosters early maternal adjustment - Elaine C. Meyer and C.T. Garcia Coll, Brown University.

Behavioral changes during the first year of growth hormone treatment - R. Clopper, SUNY at Buffalo, P. Siegel, Children's Hospital of Michigan, Catherine Stoppani and Peter Compton, Genentech, Inc. and Brian Stabler, University of North Carolina at Chapel Hill.

A randomized clinical trial of home intervention among children with failure to thrive - Maureen Black, Howard Dubowitz, Julie Berenson-Howard, and Jacqueline Hutcheson, University of Maryland School of Medicine.

-DISCUSSANT: Suzanne Bennett Johnson

11:30-1:30: POSTER PRESENTATIONS (Complementary lunch provided)

THURSDAY APRIL 22, 1993
(AFTERNOON PAPER SESSION - BEGINNING AT 1:30)

PAIN AND PAIN-RELATED BEHAVIORS

TOPIC CHAIR - Lynn S. Walker, Vanderbilt University

The role of child coping and parent response in short and long term disability associated with pediatric headache - E. Wayne Holden, Marlin O. Trulsen, Jack Gladstein, Ligia Peralta, Barbara A. Wall, Susan Corbin and Allison Bethea, University of Maryland School of Medicine.

Training particular coping strategies for particular phases of medical stressors - Ronald L. Blount, University of Georgia, Pamela J. Bachanas, University of Alabama, Scott W. Powers, Children's Hospital Medical Center and University of Cincinnati College of Medicine, Melanie Cotter, University of Alabama, and Sandra D. Blount, University of Georgia.

COFFEE BREAK

Anxiety reduction in 5 - 6 year old children during immunization procedures - Lisa Dutton and Lois Rosenberg Kugler, Radford University.

Interaction between HIV + children, their caretakers and clowns - D. Turetsky, B. G. Melamed, B. Gerson, Arye Rubinstein, and Anita Septimus, Ferkauf Graduate School of Psychology, Yeshiva University, Albert Einstein College of Medicine.

DISCUSSANT: Lynn S. Walker

CONFERENCE SOCIAL

- 5:30 - 8:30 PM

At the Home of Suzanne Johnson

Buses Leave at 5:00 and 6:00 and Return at 7:30 and 8:30

FRIDAY APRIL 23, 1993

7:30 - 8:30 **DISCUSSION HOUR: Training issues in Pediatric Psychology**

Co-Chairs: E. Wayne Holden & Lawrence J. Siegel

(MORNING PAPER SESSION - BEGINNING AT 8:30)

HIGH-RISK HEALTH-RELATED CONDITIONS OF CHILDREN AND ADOLESCENCE

TOPIC CHAIR - James F. Sallis, San Diego State University

Risk taking, self-efficacy, and perceived vulnerability as predictors of sexually-transmitted diseases in adolescents - Lawrence J. Siegel and Terry A. DiLorenzo, Ferkauf Graduate School of Psychology, Yeshiva University.

Risk Taking Behavior, Life Events Stress, and Health in African American Adolescents - Joyce Cole-Beamon, Jan L. Wallander, and Bart Hodgins, University of Alabama at Birmingham.

COFFEE BREAK

Quantifying the contribution of low birthweight to educational outcome - Kimberly H. Shaw and Keith G. Scott, University of Miami Medical School.

Developmental outcome of Ugandan infants with perinatally acquired HIV infection - Dennis Drotar, Joseph F. Fagan, Karen Olness, David Hom, Max Wiznitzer, Larry Marum, Magda M. Scheurman and Christopher Nduwiga, Case Western Reserve University School of Medicine and Makerere University

Sign up
for CEU

Childhood injury and child abuse/neglect: The need for integration - Lizette Peterson, University of Missouri

DISCUSSANT: James F. Sallis

Presentation of the Society of Pediatric Psychology Student Research Award

Receipient: Wendy B. Schuman, University of Miami

Presenter: Suzanne Bennett Johnson, President, Society of Pediatric Psychology

11:00 - 1:00: POSTER PRESENTATIONS (Complementary lunch provided)

Sign up
for CEU

FRIDAY APRIL 23, 1993
(AFTERNOON PAPER SESSION - BEGINNING AT 1:00)

FAMILY ISSUES IN PEDIATRIC PSYCHOLOGY

TOPIC CHAIR - Donald Wertlieb, Tufts University

The relationship between parental adjustment, parenting style, and school adjustment in chronically ill children - Nicholas Long, Kristin Henard-Zolten, and Amy Hendon, University of Arkansas for Medical Sciences.

The effects of asthma, diabetes, and gender on parental coping, family functioning, and child self-competence - Donna Chmielewski, E. Wayne Holden, Valarie A. Kager, and Linda Foltz, University of Maryland School of Medicine.

COFFEE BREAK

The relationship between maternal affect and child and family adjustment to diabetes - Beth Mitchell, Vicky Veitch Wolfe, and Teresa Michienzi, Children's Hospital of Western Ontario.

The relationship of role restriction to the adaptation of mothers of children with chronic illness - Trudi Venters and Jan L. Wallander, University of Alabama at Birmingham.

The impact of chronic illness on activity patterns and role strain: A diary study of daily life - Lisa C. Opipari, Alexandra L. Quittner, and Mary Jean Regoli, Indiana University.

DISCUSSANT: Donald Wertlieb

4:30 P.M.
FRONTIERS IN PEDIATRIC PSYCHOLOGY INVITED ADDRESS

ROBERT KAPLAN, Ph.D,
University of California - San Diego
and
President, Division of Health Psychology,
American Psychological Association

**THE FAILURE OF MEDICAID: CAN THE PROGRAM BE REDESIGNED
TO ADDRESS THE HEALTH NEEDS OF CHILDREN?**

 ** CONFERENCE SOCIAL **
 ** 6:30 - 9:00 **
 ** THE THOMAS CENTER **
 ** ***** **
 ** Buses Leave: 6:15 & 6:45 **
 ** Buses Return: 8:30 & 9:00 **

 REFLECTIONS ON THE SPP CHINA TOUR
 9:30 - 10:30
 University Centre Hotel Ballroom

SATURDAY APRIL 24, 1993

8:00 - 9:00 DISCUSSION HOUR: *International Pediatric Psychology*
 Chair: Lynn S. Walker

sign up
 R-CEU

(MORNING PAPER SESSION-BEGINNING AT 9:00)

RESEARCH ON CHRONIC ILLNESS
TOPIC CHAIR - Dennis Drotar - Case Western Reserve University
School of Medicine

Stressors and coping strategies described during hospitalization by acutely and chronically ill children - Anthony Spirito and Lori Stark, Rhode Island Hospital and Brown University School of Medicine.

Psychological adjustment in the face of chronic illness: Coping behaviors and attributional style as predictors of adjustment across dimensions of pediatric illness - Michael Vargo, Beth Mitchell, David Rynard, Teresa Michienzi, and Elizabeth Votta, Children's Hospital of Western Ontario.

COFFEE BREAK

Adolescents with diabetes: Factors related to adherence in an ethnically diverse, low-income sample - A.M. La Greca, K. Shaw, P. Greco, W. Schuman, and M. Eidson, University of Miami.

Problem-solving and diabetes regimen adherence by children and adolescents with IDDM in social pressure situations: A reflection of normal development - Ann Muir Thomas, University of California at Irvine, Lizette Peterson and David Goldstein, University of Missouri.

Developmental factors and coping in an ESRD population: Prediction of health status and compliance following transplantation - P. Greco, A. Brickman and D. K. Routh, University of Miami.

DISCUSSANT: Dennis Drotar

POSTER PRESENTATIONS
(11:30 - 1:30: THURSDAY APRIL 22)

Families affected by pediatric AIDS: Sources of stress and coping - Claude Ann Mellins and Anke A. Ehrhardt, HIV Center for Clinical and Behavioral Studies, New York State Psychiatric Institute and Columbia University.

Behavioral and cognitive effects of HIV infection in school-age children - Nechama Sorscher, Columbia Presbyterian Medical Center, Claude Ann Mellins, and Jennifer Havens, New York State Psychiatric Institute and Columbia University.

Coping in HIV-Positive adolescents with hemophilia - Janet R. Schultz University of Cincinnati and Larry K. Brown, Brown University.

Responses to progressive relaxation training and self-esteem groups during diabetes and asthma camp - Lois Rosenberg Kugler, Radford University.

Mono-therapy versus multi-therapy: Why real life clinical treatment requires a combination of psychodynamic, behavioral, ecological and medical therapies - S. Joseph Weaver and Pilar Jacobson, University of Kansas Medical Center.

Behavior change through supportive educational environments: A case study in youth with Tourette's Syndrome - Janet Farmer, University of Missouri School of Medicine and Dana S. Clippard and Gale Borkowsky Rice, Rusk Rehabilitation Center, Columbia MO.

Antidepressant medication with children and adolescents: A meta-analysis - Steven Thurber, Audrey F. Punnett, and Kelly Welter-Serr, University of California at San Francisco.

Limb length discrepancies: Emerging use of the Ilizarov Fixator in a pediatric population - Barbara Rzepski and Beth Ann Bull, Newington Children's Hospital.

Familial correlates and behavioral treatment of pediatric headache - Donna M. Gates, Edward P. Quinn and Alice G. Friedman, State University of New York and Binghamton.

Children with painful chronic illness: Conceptions of specific pains - Cynthia Harbeck-Weber and Debra McKee, Ohio State University and Children's Hospital, Columbus, Ohio.

Assessment of children's anxiety and pain during invasive medical procedures: Do children, parents, nurses, and independent observers agree? - Jennifer S. Pendley, Lynnda M. Dahlquist, Cheri L. Jones and C. Philip Steuber, Baylor College of Medicine and Texas Children's Hospital.

Previous child experience as a predictor of maternal anxiety and child distress during children's routine immunization procedures - Natalie C. Frank, Ronald L. Blount, Julie Bisson, Adina Smith, Reena Manimala, Laura Binzack and Rachel Blackwood, University of Georgia.

Mealtime interactions reflect family functioning - W. Hobart Davies, Medical College of Wisconsin and Children's Hospital of Wisconsin, Robert B. Noll, Children's Hospital Medical Center, University of Cincinnati, Cheryl M. Davies, Family Health Plan, Milwaukee, WI, and William M. Bukowski, Concordia College.

In search of paternal factors in pediatric outcome - Kim M. Dell'Angela, Loyola University Medical Center.

Children's and Mother's Beliefs about fault in relation to physical illness and psychosocial problems - Amy E. Friedman-Bender San Diego State University and University of California at San Diego and Vanessa L. Malcarne, San Diego State University.

Nonintentional injuries in preschool children: The effects of maternal locus of control on household safety - Kristi Alexander and Carla Gibson, University of Toledo.

The role of parenting stress, social support, and family relationships in black adolescent mothers' parenting behaviors - Katherine Nitz, University of Maryland Medical School, Robert Ketterlinus, CRS, Inc., and Linda J. Brandt, George Washington University.

Impact of life events on family functioning: An investigation with families of children with disabilities - Ellen N. Emerson and Susan L. Crowley, Utah State University.

Demographic information and health problems in a sample of homeless mothers and their young children - Jayne Bellando and Juliette Reese, Children's Hospital of New Orleans.

Failure-to-thrive, temperamental difficulties and dysfunctional families: Multiple Challenges for teen parents - Maureen Black and Katherine Nitz, University of Maryland School of Medicine.

A prospective analysis of the relationship between parenting stress and coping, and the behavioral and social adjustment of children with cancer - David W. Rynard, Children's Hospital of Western Ontario and Cathy Maan, University of Saskatchewan.

Personal space and coping in terminally and chronically ill children - Marjorie D. Sanfilippo and Donald K. Routh, University of Miami, F. Daniel Armstrong, Johanna Albrecht and Joanna Davis, University of Miami School of Medicine.

Effects of uncertainty on maternal adjustment to pediatric cancer -H.C. Huszti, S. D. Netherton, L. Rich, L. L. Mullins and R. Nitschke, University of Oklahoma Health Sciences Center.

Psychosocial perspectives in managing Juvenile Rheumatoid Arthritis - Helen Rauch-Elnekave, Marth Freeman, Gail McIlavain-Simpson and Bernhard Singsen, A.I duPont Institute and the Jefferson Medical College.

Peer adjustment in children with chronic illness: Child, teacher, and parent report - Jack H. Nassau and Dennis Drotar, Case Western Reserve University.

Cognitive functioning and school performance in children with renal disease - Vanessa K. Jensen, Kathleen Lawry and Ben Brouhard, The Cleveland Clinic Foundation.

Psychosocial aspects of chronic fatigue in children and adolescents: A comparison with healthy controls - Bryan D. Carter, William G. Kronenberger, Joseph F. Edwards, Louise Michalczyk and Gary S. Marshall, University of Louisville.

Neurophysiological and neuropsychological changes associated with the treatment of childhood cancer: A prospective study - D. Rynard, A.E. Cairney, C. Clarson, R. Dar, L.L. deVeber, Power M. Gobatto, B. Mitchess, Victoria Hospital, London, Ontario, D. Lee, University Hospital, London, Ontario and M. Pai McMaster University Medical Centre.

Parenting satisfaction and efficacy among caregivers of children with diabetes - James R. Rodrigue, Gary R. Geffken and Judy E. Clark, University of Florida.

Mediating effects of family functioning on the social adjustment of children with liver disease - Russell G. Hoffman III, James R. Rodrigue, Joel Andres, Donald Novak and Regino Gonzalez-Peralta, University of Florida.

Psychological treatment methods in IDDM in Beijing - Wu Wei Zhen, Beijing Children's Hospital, Beijing, China.

An integrated model to decision making in DNA testing: Cystic Fibrosis Carrier Screening - M. Capelli, L. Surh, M. Clulow, B. A. Hastings and N. MacDonald, Children's Hospital of Eastern Ontario.

Clinic referred children with short stature: Their psychosocial experience - David E. Sandberg, Patricia Michael and Susana P. Campos, State University of New York at Buffalo.

Cognitive functioning as a risk factor for maladjustment in children with physical disability - Lise M. Becker and Jan L. Wallander, University of Alabama at Birmingham.

Effectance motivation as a resistance factor for maladjustment in adolescents with a physical disability - Sonja Frison, Denise Hardy, and Jan L. Wallander, University of Alabama at Birmingham.

Psychoeducational risk in children with Turner's Syndrome - J. Rovet, C. Szekely, and M. Hochenberry, Hospital for Sick Children, Toronto, Canada

Does maternal epilepsy increase the risk of adverse neurodevelopmental outcome in children? - J. Rovet, D. Scolnik, I. Nulman, D. Altmann, and G. Koren, Hospital for Sick Children, Toronto, Canada.

The relationship between parent stress and child temperament in medically fragile children - Susan L. Crowley, Ellen N. Emerson, and Timothy B. Smith, Utah State University.

Assessment of Self-esteem in pediatric burn patients - Kamela S. Koon, Patricia Blakeney, Walter Meyer, Lyle Broemelng, Pamela Moore, Rondi Hunt, Martin Robson, and David Herndon, Emory University School of Medicine and Shriners Burns Institute and University of Texas Medical Branch-Galveston.

Preventing child-to-parent transmission of Cytomegalovirus infection - Jack W. Finney and Kathryn M. Miller, Virginia Polytechnic Institute and State University and Stuart P. Adler, Medical College of Virginia.

A year of pediatric psychology inpatient consultations done by interns - Elizabeth A. Seagull, Michigan State University.

Pubertal disorders: Psychology and clinical management - Tom Mazur, State University of New York at Buffalo.

Prevention issues for HIV positive adolescents - Heather C. Huszti, University of Oklahoma Health Sciences Center.

POSTER PRESENTATIONS
(11:00 - 1:00 FRIDAY APRIL 23)

Cognitive functioning in infants and toddlers with Sickle Cell Anemia - Marilyn Schiller, John Garwood and Jeffrey M. Lipton, Mount Sinai Medical Center.

Enhanced parenting knowledge and skills in mothers of preschool children with Sickle Cell Disease - Wendy B. Schuman, F. Daniel Armstrong, Charles H. Pegelow, and Donald K. Routh, University of Miami.

A behavioral family intervention to improve adherence and metabolic control in children with IDDM - Melanie J. Bonner and Jack W. Finney, Virginia Polytechnic Institute and State University.

Parental discipline of pediatric oncology patients - Elissa Jelalian and Lori J. Stark, Rhode Island Hospital and Brown University School of Medicine.

Emotional adjustment in minority children with asthma: Risk factors in the social environment - Shari L. Wade, and Anne E. Hungerford, Case Western Reserve University School of Medicine.

Psychosocial adjustment of mothers of urban minority children with asthma: Associations with dimensions of the social environment - Shari L. Wade and Anne E. Hungerford, Case Western Reserve School of Medicine.

Self-esteem in children and adolescents with insulin dependent diabetes mellitus - Debra S. Klinger, Jeffery W. Elias, Michael J. Bourgeois, Brenda M. Folstrom, Kathy Streit and Kelly Chirafis, Texas Tech University School of Medicine.

Marital quality, parenting stress, and compliance in families of children with cystic fibrosis - Bryan D. Carter, William G. Kronenberger, Susan Conradsen and Nemr Eid, University of Louisville.

Developing a measure of the problems faced by adolescents with Cystic Fibrosis: A situational analysis phase - Alexander Quittner, Ann M. DiGirolamo and Mary Jean Regoli, Indiana University.

Differences in psychological adjustment, family environment, and life stress between children with inflammatory bowel disease or recurrent abdominal pain - S. D'Angelo, L. Larsen, R. Dillard and D. Herrick, University of Kentucky Medical Center.

Measuring coping in adolescents: Administration of the Ways of Coping Checklist - Mary Halstead, Suzanne Johnson, Walter Cunningham and Stephen Boggs, University of Florida.

Use of the Children's Perceptual Alteration Scale (CPAS) in pediatric psychology - M. Evers-Stostak, Durham Pediatrics and D. S. Spetter, New England Medical Center.

Systematic replication of an easily scored pediatric distress scale: Use of the Behavioral Approach-Avoidance and Distress Scale during medical procedures - Pamela J. Bachanas, University of Alabama, Ronald L. Blount, University of Georgia, Scott W. Powers, Children's Hospital Medical Center and University of Cincinnati College of Medicine.

The Child Adult Medical Procedure Interaction Scale-Revised: An examination of reliability and validity - Ronald Blount, M. Reena Manimala, Natalie C. Frank, Julie A. Bisson, and Adina Smith, University of Georgia.

Multi-method assessment of depression and behavioral distress in a pediatric population - Christina Rodriguez, University of Florida.

The construction of a brief assessment battery of children's current functioning - Jacquelin Goldman and Martin Ward, University of Florida.

Screening for common childhood behavior problems: A measure for use in the primary care setting - Nicholas Long, Amy Hendon and Kristin Henard-Zolten, University of Arkansas for Medical Sciences.

Parental perception of stress and its relationship to cognitive functioning in children with insulin dependent diabetes mellitus - Debra S. Klinger, Jeffery W. Elias, Michael Bourgeois, Brenda M. Folstrom, Ashley Gum, Stacey Gillespie, Tammy Fickle, and Kelly Chirafis, Texas Tech University School of Medicine.

Mothers report of stressful life events related to having a child with a physical disability - Ashley E. Bryant and Jan L. Wallander, University of Alabama at Birmingham.

Coping, handicap-related stress and adjustment in adolescents with a physical disability - Denise F. Hardy, Sonja Frison and Jan Wallander, University of Alabama at Birmingham.

Single-subject study on self-injection-related anxiety - Kathryn E. Moore, Gary Geffken, George P. Royal and Lynn M. Covitz, University of Florida.

Coping with stress among mothers and fathers of children with cancer - S. D. Netherton, H.C. Huszti, L. Rich, L.. Mullins and R. Nitschke, University of Oklahoma Health Sciences Center.

Correlates of child distress during lumbar punctures: Parent behavior and parenting characteristics - Connie E. Morrow, F. Daniel Armstrong, Donald K. Routh, Carol Gay, and Jackie Levy, University of Miami.

Non-clinical reports of menstrual pain in adolescent females - Carrie L. Masia, Lydia D. McLarnon, Leslie E. Spieth, Karen L. Cuddihy and Judith R. Mathews, West Virginia University.

Psychological adjustment in children after Hurricane Andrew - Alan Delamater, Lynn Kerdyk, Maria Fernandez, Lisa Guy, Julie Kabel, Sabina Coronado, Catherine Grus, Kimberly Shaw and Deborah Thevenin, University of Miami School of Medicine.

Treatment of PTSD in a 10-year-old boy: A case study - Sabina Coronado and Alan Delamater, University of Miami School of Medicine.

Stress, coping and psychological adjustment of children undergoing bone marrow transplantation - William G. Kroneberger, Bryan D. Carter, Catherine Morrow, Jeanette Stewart, Kimmerly Martin, and Leonard Sender, University of Louisville.

Parenting stress and health locus of control associated with infant prematurity - Susan Epps, University of Nebraska Medical Center.

Maternal interaction with medically-fragile two-year-olds: Effects of parenting stress and child development - Beth Onufrak, Medical University of South Carolina and Conway F. Saylor, The Citadel.

The role of the psychologist in the neonatal intensive care unit - Melissa R. Johnson, Joni L. McKeeman, and J. Kenneth Whitt, Wake Medical Center/University of North Carolina at Chapel Hill.

Family characteristics, home environment and developmental outcome of infants exposed to cocaine in-utero - Janine Watson, Kelly Carroll, Malinda Webb, Bettye Caldwell, Robert Bradley, and Patrick Casey, University of Arkansas for Medical Sciences and University of Arkansas at Little Rock.

Three year follow-up of families with a survivor of Neonatal Extracorporeal Membrane Oxygenation (ECMO): A promising preliminary report of family functioning - Janice Ware and Margaret VanSciver, Boston Children's Hospital.

Sibling visitation and support services in the neonatal intensive care nursery - E.C. Meyer, K.F. Kennally and E. Zika-Beres, Women and infant's hospital, Providence, Rhode Island.

Patterns of environmental action and adaptive social behavior in premature, low birthweight children from three socio-cultural groups - Robert H. Bradley, Leanne Whiteside, Daniel J. Mundfrom, Belinda Blevins-Knabe, University of Arkansas at Little Rock, Patrick H. Casey, Kelly Kelleher, and Sandra Pope, University of Arkansas for Medical Sciences.

Family and illness predictors of outcome in children with brain tumors - Bonnie Carlson-Green, Robin Morris, Georgia State University and Nick Krawiecki, Emory University School of Medicine.

Physician-parent communications in a pediatric clinic: Relationship to compliance and satisfaction - Frances Worchel, Bruce Prevatt, Pat Nation, Jennifer Miner, Melissa Allen, and Linda Wagner, Texas A & M University.

Reasons for condom use among high-risk adolescent females - Susan L. Rosenthal, Frank M. Biro and Lawrence R. Stanberry, Children's Hospital Medical Center and University of Cincinnati.

Do working mothers have children with behavior problems? A response to a pediatric survey - V.J. Barone, M. McMaster-Beyer, M.J. Ikeda, D.J. Olmi, S. Allen, K.B. Pieper, and J.H. Evans, University of Nebraska Medical Center.

Risk factors for eating disorders among minority youth with diabetes: An attachment theory perspective - Kimberly H. Shaw, Annette M. La Greca, Peggy Greco, Margaret Edison, Sharon Marshall and Wendy Schuman, University of Miami.

Munchausen Syndrome by proxy: Another Women's Disorder? - Paul Robins, Alfred I. duPont Institute and Robin Sesan, Wilmington, Delaware.

Cognitive effects of lyme disease in children - Wayne Adams, Carlos Rose, Stephen Eppes and Joel Klein, A.I. duPont Institute.

Nonpharmacologic pain management for children with HIV/AIDS - Olivia R. Lewis and Marge Iurato Torrance, University of Medicine and Dentistry of New Jersey.

Temporal and pacing factors during parent-child mealtime interactions for children with selective food refusal - Nana N. Li, DePaul University, Tria B. Murphy and Mary A. Werle, Illinois Institute of Technology, and Karen S. Budd, DePaul University.

Correlates of disturbed eating in young adolescent girls - Jennifer Shross Pendley and John E. Bates, Indiana University.

Withdrawal of technology prolonging life: Interdisciplinary perceptions of the decision-making process - Michael C. Vargo and Timothy C. Frewen, Children's Hospital of Western Ontario.

Prevention issues for HIV positive adolescents - Heather C. Huszti, University of Oklahoma Health Sciences Center
