## **Welcome to Gainesville and the 2006 National Conference on Child Health Psychology**

We would like to take this opportunity to welcome each of you to the Tenth National Conference on Child Health Psychology. We hope you will find the conference to be an informative one and your stay in Gainesville enjoyable. To increase the likelihood of both there are several aspects of the conference that are worthy of note.

First, on Thursday and Friday, paper sessions will begin at 8:30 A.M. (9:00 on Saturday). Each morning's paper session will be preceded by an informal discussion hour (from 7:30 -8:30). This year's discussion hour topics include Board Certification in Clinical Child and Pediatric Psychology, Career Paths in Pediatric Psychology, and Issues of Cultural Diversity in Pediatric Psychology Research. To enhance your ability to concentrate at this early hour, a continental breakfast will be available for those attending discussion hours as well as for others prior to the beginning of the morning paper sessions. In addition, a complementary lunch will be provided for all registrants during the conference poster sessions, which are scheduled during the noon hours on Thursday (April 20) and Friday (April 21).

To complement the more content oriented aspects of the conference, as in past years, we have scheduled several social activities, which we hope will add to your enjoyment and facilitate interaction among participants. These include a pre-conference reception (accompanied by a Poster Session and Registration) on Wednesday April 19<sup>th</sup> (7:00 – 10:00 PM) at the University of Florida Hilton and Conference Center (Convention Hotel). There will also be a Reception at the Florida Museum of Natural History and the UF Butterfly Rainforest on Thursday evening (April 20) from 6:00 until 9:00 PM as well as our "Experience Rural Florida" social at Camp Kulaqua in High Springs Florida on Friday afternoon (April 21) after the end of the afternoon paper session. Transportation will be provided by bus to and from High Springs, with the first busses leaving from the Hilton at approximately 4:30. Note that there will only be about a half-hour break between the ending of the afternoon session and the time the busses leave, so dress casual for the Friday paper sessions. Also, note that one of the busses will be designated to deliver those staying at hotels other than the Hilton to their hotels after the social, if they desire.

For those wishing to obtain psychology continuing education credit for attendance at each of the five paper sessions and the Frontiers in Pediatric Psychology address, a continuing education table has been set up for your convenience. To receive CE credit for a particular session, it will be necessary to sign an attendance sheet for that session and pick up a session evaluation form as you enter. Immediately following the session, return the completed evaluation to the CE table to obtain a CE certificate for that session.

Again, we hope each of you will find the conference and your stay in Gainesville to be informative and enjoyable. If, during the conference, you have any additional questions that are not answered here or in the program simply ask any member of the Conference Program Committee. These individuals can be identified by the small alligator (this is Florida you know!) attached to their conference name tags.

### Acknowledgments

No conference can take place without the support, financial and otherwise, of many individuals and groups. This one is no exception. In this regard we must acknowledge the sponsors, the University of Florida Department of Clinical and Health Psychology, the University of Florida College of Public Health and Health Professions, the Society of Pediatric Psychology (APA, Division 54), and the National Institute of Mental Health Center for Mental Health Research on AIDS, for their sponsorship of the Saturday Symposium on HIV/AIDS. Here, it is important to note the close and longstanding collegial relationship between the University of Florida and SPP as co-sponsors of this national conference since its founding, as the Florida Conference on Child Health Psychology at the University of Florida, in 1988. This was followed by the joint sponsorship of seven additional Florida conferences between the years of 1989 and 2001. This close association as co-sponsors, forged in 1988, has been central to the success of this conference over the years, and is no less so as regards the present conference.

Apart from this support, the encouragement and emotional support of Dr. Ronald Rozensky, Chair, Department of Clinical and Health Psychology and Dr. Robert Frank, Dean, College of Public Health and Health Professions must also be noted. As always, both have continued to provide unwavering support of this conference, both financially and otherwise. Thanks also go to the University of Florida Office Of Sponsored Research, the University of Florida Center for Pediatric Psychology and Family Studies, the American Board of Clinical Child and Adolescent Psychology, Psychological Assessment Resources (PAR), NIMH, and Oxford University Press for their role as Valued Conference Contributors.

The names of all those faculty and students, both from the University of Florida and the Society of Pediatric Psychology, who have served on various conference-related committees and who did the planning and the work necessary to make this conference a reality, are listed on the next page. Without their total commitment to the success of the conference, this event would not have been possible. In addition, the administrative and secretarial support and overall helpfulness of Andrea Burne, Janet Frank, Vicki Mayo, Melissa Stern, and Cina Thomas is gratefully acknowledged.

## Wednesday (April 19<sup>th</sup>), Poster Session

**7:00 – 10:00 PM**

Presenters should note that, accompanying the listing of each poster (at the bottom of the listing) is a number that identifies the poster board that the presenter should use to present his/her poster during the assigned poster session. This number will be preceded by a letter (W = Wednesday; T = Thursday; F = Friday), which will be followed by the number of the poster board that has been assigned to the presenter. For example, W15 indicates that the presenter is assigned to the Wednesday Evening poster session and to poster board Number 15.

## **Friday (April 21<sup>st</sup>) Poster Session 11:00 - 12:30**

Presenters should note that, accompanying the listing of each poster (at the bottom of the listing), is a number that identifies the poster board that the presenter should use to present his/her poster during the assigned poster session. This number will be preceded by a letter (W = Wednesday; T = Thursday; F = Friday), which will be followed by the number of the poster board that has been assigned to the presenter. For example, W15 indicates that the presenter is assigned to the Wednesday Evening poster session and to poster board Number 15.

## This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

## This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be a standard notebook page, possibly from a composition book or a legal pad. The edges of the paper are slightly irregular, suggesting it might be a scan of a physical document. There is no handwriting or other markings on the page.
