

Title of Measure	Construct of Measure	Respondent	Age Range
Food Allergy Quality of Life--Parental Burden (FAQL-PB)	Parent report of burden associated with having a child with FA	Parent report	Parents of children with FA
FAQL-teen	Food allergy quality of life assessment for adolescents	Adolescent report	13-19 years
Food Allergy Quality of Life Questionnaire -- Child Form (FAQLQ-CF)	Self-report measure of health-related quality of life for children with FA	Child report	8-12 years
Food Allergy Quality of Life Questionnaire -- Teen Form (FAQLQ-TF)	Self-report measure of health-related quality of life for adolescents with FA	Adolescent report	13-17 years
Food Allergy Quality of Life Questionnaire -- Parent Form (FAQLQ-PF)	Parent-report of impact of FA on health-related quality of life for children aged 0-12 years	Parent report	Parent of youth aged 0-12
Food Allergy Quality of Life Questionnaire--Adult Form (FAQLQ-AF)	Self-report measure of health-related quality of life for adults with FA	Adult report	>18 years
Food Allergy Bullying Questionnaire	Report of bullying, teasing, and harassment related to FA	Self- or caregiver-report	Teens and older
Food Allergy Independent Measure -Child Form (FAIM-CF)	Self-report independent measure (objective measurement of FA severity)	Child report	8-12 years
Food Allergy Independent Measure-Teenager Form (FAIM-TF)	Self-report independent measure (objective measurement of FA severity)	Teen report	13-17 years
Food Allergy Impact Scale (FAIS)	Parent report of impact of their child's FA on aspects of daily family activities	Parent report	Parents of children with FA
Food Allergy Management and Adaptation Scale (FAMAS)	Semi-structured interview to assess child and family FA management skills, FA-related anxiety, and the family's overall balanced integration, in addition to self-reported rating scales	Families of youth ages 6-12 years old with FA	Families of child ages 6-12 years
Social Activity Limitations Inventory (SALI)	Parent report measure of social activity limitation due to FA	Parent report	Parents of children with FA
Food Allergy Knowledge Test (FAKT)	Parent FA knowledge	Parent report	Parents of children with FA
The Food Allergy Management Perceptions Questionnaire (FAMPQ)	Adolescent self-report measure of FA management facilitators and barriers	Child report	11-22 years

Chicago Food Allergy Research Survey for Parents of Children with Food Allergy (CFARS-PRNT)

Measure of parent-reported FA knowledge, attitudes, and beliefs

Parent report

Parents of children with FA

Chicago Food Allergy Research Survey for Primary Care Physicians (CFARS-PHYS)

Measure of physician-reported FA knowledge, attitudes, and beliefs

Physician report

Physicians of children with FA

Worry About Food Allergy (WAFA) Questionnaire

Measure of allergy-specific anxiety

Parent report (three versions); Child/Teen report

Parents of children 0-17; Children/Teens 8-17
