# WELCOME

## TO THE FIFTH FLORIDA CONFERENCE ON CHILD HEALTH PSYCHOLOGY

We would like to take this opportunity to welcome each of you to the Fifth Florida Conference on Child Health Psychology. We hope that you will find the conference to be an informative one and your stay in Gainesville enjoyable. To increase the likelihood of both there are several aspects of the conference that are worthy of note.

First, on Thursday and Friday paper sessions will begin at 8:30 AM (9:00 AM on Saturday). Each morning's paper session will be preceded by a discussion hour that deals with special topics of general interest to Child Health Psychologists. To facilitate your ability to concentrate at this early hour, a continental breakfast will be available for those attending discussion hours, as well as for others prior to the beginning of the morning paper sessions. In addition, a complementary lunch will be provided for all registrants during the conference poster sessions which are scheduled during the noon hours on Thursday (April 20) and Friday (April 21).

To complement the more content-oriented aspects of the conference, we have scheduled several social activities that we hope will add to your enjoyment and facilitate attendees and participants getting to know one another. These include a pre-conference reception on Wednesday, April 19th (7:00 PM - 10:00 PM) at the University Centre Hotel. There will be a picnic at Lake Wauberg from 4:30 PM - 7:00 PM on Thursday, April 20th (transportation will be by bus; schedules for departure and return are provided in the program). On Friday, April 21st, the Frontiers in Pediatric Psychology invited address will be held from 5:30 PM - 6:30 PM at the Harn Museum of Art Auditorium, followed by a conference social ending at 9:00 PM (again, bus schedules are included in the program).

For those wishing to obtain psychology continuing education credit for attendance at each of the five paper sessions and the Frontiers in Pediatric Psychology address, a Continuing Education table has been set up for your convenience. To receive CE credit for a particular session, it will be necessary to sign an attendance sheet for that session and pick up a session evaluation form as you enter. Immediately following the session, return the completed evaluation form to the CE table to obtain a CE certificate for that session.

Again, we hope each of you will find the conference to be informative and your stay with us enjoyable. If during the conference, you have any additional questions that are not answered here or in the program simply ask any member of the Conference Planning Committee. These individuals can be identified by the small alligator attached to their conference name tags.

Steve Boggs

*Co-Chair Conference Planning Committee*

## ACKNOWLEDGMENTS

No conference can take place without the support, financial and otherwise, of many individuals and groups. This one is no exception. In this regard we must acknowledge the direct financial support of the sponsors, the University of Florida Department of Clinical and Health Psychology, the Society of Pediatric Psychology, the Division of Health Psychology of the American Psychological Association, the University of Florida Center for Pediatric Psychology Research, and the North Central Florida Chapter of the Florida Psychological Association. The encouragement and support provided by Dr. Nathan W. Perry, Chair of the Department of Clinical and Health Psychology, and Dr. Robert Frank, Dean of the College of Health Related Professions, have been instrumental in organizing this year's Florida Conference.

The names of those faculty and students who served on various conference-related committees and who did the work necessary to make the conference a reality are listed below. In addition, the administrative and secretarial support and overall helpfulness of Teresa Keppel, Peggy Bessinger, Crystal Lee, and Sharon Short (Department of Clinical and Health Psychology) is gratefully acknowledged.

### CONFERENCE PLANNING COMMITTEE

Steve Boggs and Suzanne Bennett Johnson, *Co-Chairs*; Sheila Eyberg, Gary Geffken, Jim Johnson, Michael Perri, Jim Rodrigue, and Marika Spevack

### PROGRAM COMMITTEE

Steve Boggs and Suzanne Bennett Johnson, *Co-Chairs*; Christina Adams, Gary Geffken, Jacque Goldman, Jim Johnson, Tricia Park, Michael Perri, Jim Rodrigue, Marika Spevack, and Ken Tercyak

### SOCIAL/RECREATION COMMITTEE

Suzanne Bennett Johnson and Marika Spevack, *Co-Chairs*; Judy Clark, Angie Lane, Delia Olufokunbi, and Janice Wachtel

### LOCAL ARRANGEMENTS COMMITTEE

Jim Rodrigue, *Chair*; Christine Banko, Elizabeth Brestan, Gloria Brinson, Felicia Brown, Andy Colvin, Tim Conway, Dan Edwards, Johanna Esquerre, Garrett Evans, Jacque Goldman, Susannah Kury, Celia Lescano, Kathy MacNaughton, Tanya Mickler, Suzanne Musil, Jenifer Rigelhaupt, George Royal, Tara Spevack, Randi Streisand, and Tricia Zawacki

### CONTINUING EDUCATION & EVALUATION

Sheila Eyberg, *Chair*; Stacey Hoffman, Wendy Kubar, and Arista Rayfield

Thanks are also due to Gary Geffken for help with conference publicity.

**THE FIFTH FLORIDA CONFERENCE ON CHILD HEALTH PSYCHOLOGY**  
**GAINESVILLE, FLORIDA**  
**APRIL 20 - 22, 1995**

**WEDNESDAY APRIL 19, 1995**

*Pre-Conference Reception*  
7:00 PM - 10:00 PM  
University Centre Hotel (11th Floor)

**THURSDAY APRIL 20, 1995**

*Discussion Hour:*  
"Special Interest Group on Pediatric Psychologists in Primary Care Settings"  
7:30 AM - 8:30 AM  
Chair: *Linda Hurley* - Fort Worth Pediatrics

**THURSDAY APRIL 20, 1995**

**MORNING PAPER SESSION - BEGINNING AT 8:30 PM**

**INTRODUCTIONS:**

*Steve Boggs* - Department of Clinical and Health Psychology, University of Florida  
*William Rae* - President, Society of Pediatric Psychology  
*Suzanne Bennett Johnson* - President, APA Division of Health Psychology

***INTERVENTION OUTCOME IN PEDIATRIC PSYCHOLOGY***

**TOPIC CHAIR:**

*Scott Henggeler* - Medical University of South Carolina

A primary school-based health promotion project for increasing sun protective behaviors - R.G. Hoffmann, III, Children's Hospital, Columbus, Ohio; J.R. Rodrigue and J.H. Johnson, University of Florida.

Nurse coaching and video distraction during children's painful medical procedures: A practical intervention - Lindsey L. Cohen, Ronald L. Blount, Georgia Panopoulos, Reena M. Manimala, Joseph T. Pate, Jr. and Adina J. Smith, University of Georgia.

A marital intervention for couples with chronically ill children: A 2-year follow-up - Jan Gordon Walker, Ian Manion, Susan Johnson, and Paula Cloutier, Children's Hospital of Eastern Ontario.

**COFFEE BREAK**

Five year clinical outcome of early intervention for ADDH preschoolers - Susan Pisterman and Janet Olds, Children's Hospital of Eastern Ontario; Philip Firestone, University of Ottawa; Robert Pilon and Victoria Williams, Formerly of the Children's Hospital of Eastern Ontario.

Parent and staff acceptance of behavioral interventions for children with cancer - Deborah L. Miller, Sharon Manne, and Elizabeth Van Pelt, Memorial Sloan-Kettering Cancer Center.

**DISCUSSANT:**

*Scott Henggeler*

**POSTER PRESENTATIONS - 11:30 AM - 1:30 PM**

(COMPLEMENTARY LUNCH PROVIDED)

**AFTERNOON PAPER SESSION - BEGINNING AT 1:30 PM**

***PSYCHOLOGICAL SEQUELAE OF MEDICAL PROCEDURES AND TREATMENTS***

**TOPIC CHAIR:**

*Brian Stabler* - University of North Carolina-Chapel Hill

Early hospitalization and behavioral/emotional problems in preschool children - Hans M. Koot, Sophia Children's Hospital-Erasmus University, Rotterdam, the Netherlands.

Body image and social adjustment in adolescent cancer survivors - Jennifer Shroff Pendley, Lynnda M. Dahlquist, and ZoAnn Dreyer, Baylor College of Medicine and Texas Children's Hospital.

**COFFEE BREAK**

Helping families cope during painful medical procedures: From basic research to integrated practice - Scott W. Powers, Children's Hospital Medical Center and University of Cincinnati College of Medicine.

Psychological impact of islet cell antibody screening for IDDM - Kenneth P. Tercyak, Jr. and Suzanne Bennett Johnson, University of Florida.

**DISCUSSANT:**

*Brian Stabler*

***Conference Social***

**A Picnic at Lake Wauberg**

**4:30 PM - 7:00 PM**

Please wear your badge for admission at the gate.  
Buses will depart at 4:00 PM and return at 6:00 PM and 7:00 PM.

**FRIDAY APRIL 21, 1995**

*Discussion Hour:*

*"Internships, Post-Docs, and Beyond"*

7:30 AM - 8:30 AM

Chair: *Lisa Buckloh* - University of Kansas

Participants: *Cynthia Harbeck-Weber* - Columbus Children's Hospital;  
*Scott Powers* - Cincinnati Children's Hospital Medical Center;  
*William Rae* - Scott and White Clinic

**FRIDAY APRIL 21, 1995**

**MORNING PAPER SESSION - BEGINNING AT 8:30 AM**

***HEALTH-RELATED PSYCHOLOGICAL ISSUES OF ADOLESCENTS***

**TOPIC CHAIR:**

*Tim Wysocki* - Nemours Children's Clinic

The health concerns of adolescents and their use of health care resources - Lawrence J. Siegel, Ferkauf Graduate School of Psychology, Yeshiva University.

Assessing the effects of methylphenidate on adolescents diagnosed with Attention Deficit Hyperactivity Disorder - B.H. Smith, W.E. Pelham, S.E. Evans, Jr., B.M. Molina, S.E. Eggers, M.T. Willoughby, S.E. Owens, D. Paul, O. Bukstein, G. Vallano, and M. Presnell, University of Pittsburgh Medical Center.

Adolescent motherhood in the neonatal intensive care unit (NICU) - Elaine C. Meyer, Patricia J. Flanagan, Cynthia T. Garcia Coll, Melissa Nothnagle, Adriana Ramos, Erny Kilis, Lori Kelly, and William Oh, Brown University, Women & Infants Hospital.

**COFFEE BREAK**

Biologic, treatment, and insulin adherence behaviors predictive of glucose metabolism in adolescents with IDDM - Suzanne Bennett Johnson, Janet Silverstein, and Nelly Mauras, University of Florida and Nemours Children's Clinic.

Relationship of family factors and glycemic control in youths with diabetes - Alan M. Delamater and Julie L. Landel, University of Miami School of Medicine.

Parent and peer influences on the health behaviors of adolescents with insulin dependent diabetes mellitus - Lise M. Becker and Jan Wallander, University of Alabama at Birmingham.

**DISCUSSANT:**

*Tim Wysocki*

**POSTER PRESENTATIONS - 11:30 AM - 1:30 PM**

**(COMPLEMENTARY LUNCH PROVIDED)**

**AFTERNOON PAPER SESSION - BEGINNING AT 1:30 PM**

**GENERAL SESSION**

**SESSION CHAIR:**

*James H. Johnson* - University of Florida

Mothers' and children's perceptions of asthma medication - Laura McMaster DePaola and Michael C. Roberts, University of Kansas.

Inadequate oral intake in cystic fibrosis: The role of parent-child interactions - Elissa Jelalian, Brown University School of Medicine; Mary M. Mulvihill, San Diego State University; Lisa Oipari and Scott W. Powers, Brown University School of Medicine; Melbourne F. Hovell, San Diego State University; Michael Light, Ivan Harwood, Mary Anne Passero, and Lori J. Stark, Brown University School of Medicine.

Disease severity, stress, and maternal adjustment in juvenile rheumatic disease: A test of Varni and Wallander's model - Frances Johnson Niarhos, Vanderbilt University/Center for Mental Health Policy.

**COFFEE BREAK**

Symptom perception and functional morbidity in pediatric asthma - Elizabeth L. McQuaid, Gregory K. Fritz, and Anthony Spirito, Rhode Island Hospital/Brown University School of Medicine.

Neurodevelopmental status of Ugandan infants with HIV infection - Dennis Drotar, Karen Olness, Lawrence Marum, Christopher Ndugwa, and Grace Svilar, Case Western Reserve and Makerere Universities.

A self-management intervention for school age children with chronic health conditions and their parents - Diane Magyary and Patricia Brandt, University of Washington.

Perceptions of control and the coping process in adolescent headache patients - E. Wayne Holden, Chad C. Nelson, and Jack Gladstein, University of Maryland School of Medicine.

**DISCUSSANT:**

*James H. Johnson*

FRIDAY APRIL 21, 1995

*Frontiers in Pediatric Psychology Invited Address:*

"What is Psychoneuroimmunology and Why Would a Child Health Psychologist Care?"

5:30 PM

*Sheldon Cohen* - Carnegie-Mellon University

The Harn Museum of Art Auditorium

Buses will leave at 5:00 PM and return at 8:30 PM and 9:00 PM

*Conference Social*

6:30 PM - 9:00 PM

The Harn Museum of Art

**SATURDAY APRIL 22, 1995**

*Discussion Hour:*

"Medical Crisis Counseling with Children and their Families: Concept and Applications"

8:00 AM - 9:00 AM

Co-Chairs: *Gerald Koocher* and *Elaine Meyer* - Linda Pollin Institute, Harvard Medical School

**MORNING PAPER SESSION - BEGINNING AT 9:00 AM**

***ASSESSMENT IN PEDIATRIC PSYCHOLOGY***

**TOPIC CHAIR:**

*Annette La Greca* - University of Miami

The Children's Attitudes Toward Illness Scale: Replication and extension - Pamela J. Bachanas, Emory University School of Medicine, Dawn Koontz, and William A. Rae, Scott and White Hospital.

Problematic situations experienced by families of adolescents with CF: Do families agree and is agreement related to family functioning? - Alexandra L. Quittner, Indiana University and Ann M. DiGirolamo, Oklahoma Health Sciences Center.

**COFFEE BREAK**

Classifying the outcome of pediatric intensive care patients: Functional Morbidity and Cognitive Impairment Scales - Nicholas Long and Debra Fiser, University of Arkansas for Medical Sciences, Arkansas Children's Hospital.

Development and evaluation of the Parents of Children with Disabilities Inventory: A measure of areas of concern related to raising a child with a chronic physical condition - Ashley Bryant Noojin and Jan L. Wallander, University of Alabama at Birmingham.

The role of fathers in pediatric psychology assessment: The under-appreciated parent - Peggy Greco, Michael Harris, Tim Wysocki, Caroline Elder, and Linda M. Harvey, The Nemours Children's Clinic and Washington University School of Medicine.

**DISCUSSANT:**

*Annette La Greca*

# **POSTER PRESENTATIONS**

THURSDAY APRIL 20 - 11:30 AM - 1:30 PM

(Please note: The number beside each entry indicates the poster board number for the presentation.)

1. A longitudinal study of cognitive performance in children with early versus late onset of insulin-dependent diabetes mellitus - Tara V. Spevack, Eileen B. Fennell, Suzanne Bennett Johnson, and Mary Ann Clark, University of Florida.
2. Mothers' coping and their perception of the impact of cancer on their child - T. Havermans and C. Eiser, University of Exeter.
3. The association between personality characteristics and children's perception of their quality of life - T. Havermans and C. Eiser, University of Exeter.
4. The influence of parental reassurance and distraction/coaching on children's reactions to an aversive medical procedure - M. Reena Manimala, Ronald L. Blount, Georgia Panopoulos, Lindsey L. Cohen, Joseph T. Pate, Adina J. Smith, and Julie B. Morris, University of Georgia.
5. The relationship between what parents say they do and what they actually do during children's routine immunizations - M. Reena Manimala, Ronald L. Blount, Georgia Panopoulos, Lindsey L. Cohen, Joseph T. Pate, Adina J. Smith, and Julie B. Morris, University of Georgia.
6. Oral feeding in children with short bowel syndrome or pseudo-obstruction - MaryLouise E. Kerwin and Peggy S. Eicher, Children's Seashore House and University of Pennsylvania School of Medicine.
7. Treatment of food refusal by manipulation of food volume on spoon - MaryLouise E. Kerwin and William H. Ahearn, Children's Seashore House and The University of Pennsylvania School of Medicine.
8. Five-Year follow-up of recurrent abdominal pain patients - Lynn S. Walker, Judy Garber, and Deborah A. Van Slyke, Vanderbilt University Medical Center.
9. Home visiting for children with developmental delays: An empirical evaluation - Tracy Black and Richard N. Roberts, Utah State University.
10. The influence of uncertainty and coping style on maternal adaptation to pediatric chronic illness: A disease specific comparison - Valerie L. Hartman, Mary E. Phillips, and Stephanie Hahl, University of Central Oklahoma; Larry L. Mullins, University of Central Oklahoma and University of Oklahoma Health Sciences Center; and Heather C. Huszti, University of Oklahoma Health Sciences Center.

11. Family functioning and adjustment following traumatic brain injury - Tracy Schatzberg and Trevor Stokes, University of South Florida.
12. Judgments about supervision for children to prevent injury: Role of child development knowledge and locus of control - Kristi Alexander and Michelle Ebright, U.S. International University; and Julie Reeker, University of Toledo.
13. Hope, coping, and adjustment among children with sickle cell disease: Tests of mediator and moderator models - Hellen Lewis and Wendy Kliewer, Virginia Commonwealth University.
14. Psychological distress and personality factors in youth with persistent fatigue - Suzanne M. Thompson, Amy L. Lee, Vanessa K. Jensen, Johanna Goldfarb, Bernhard H. Singen, Carla R. Saracusa, The Cleveland Clinic Foundation.
15. When chronically ill children go to school: A pilot survey of school professionals' understanding of chronic illness - Dante S. Spetter, Tufts University and Primary Care Outcomes Research Institute; and Robin Thibideau, Primary Care Outcomes Research Institute, Donna Cooley, Tufts University School of Medicine.
16. Parent-child conflicts of children and adolescents with chronic fatigue syndrome in comparison to healthy and depressed peers - Joseph F. Edwards, Gary D. Marshall and Bryan D. Carter, University of Louisville; and William G. Kronenberger, Indiana University.
17. Adults' perceptions of children: Effects of information on a so-called childhood cancer stereotype - Lisa A. Orf, Brenda Gilbert, Elizabeth Fischer, and Tammy Viviano, Southern Illinois University.
18. Problems of memory and language following severe intracranial incident in childhood and adolescence: Application of a developmentally-oriented intervention model - Douglas Faust, Grant Butterbaugh, and Bridget Cambias, Children's Hospital, New Orleans, LA.
19. The effects of stroke and moyamoya vessels on sustained attention and impulsivity in children with sickle cell disease - K.C. Shimoda, Children's National Medical Center, Washington, DC; L.R. Waid, M.R. Abboud, S.M. Jackson, J. Shearer, K. Matthews, E. Onufrak, and J.H. Laver, Medical University of South Carolina.
20. Psychosomatic families revisited: Family patterns in children with pain disorders - W. Hobart Davies, Robert B. Noll, Kathryn Vannatta, Todd J. Troshynski, Nathan M. Szajnberg, Lynn M. Rusy, and Noreen C. Trentadue, Children's Hospital of Wisconsin, Medical College of Wisconsin, and University of Cincinnati.
21. The role of self-concept in children's adjustment to brain-injury - H. Snyder, J. Maddux, and S. Denham, George Mason University.

22. A qualitative study of parental coping with pediatric cancer - William E. Fahey, Sandra D. Netherton, Ann M. DiGirolamo, and Heather C. Huszti, University of Oklahoma Health Sciences Center.
23. Psychosocial predictors of health-care encounters and school functioning in elementary school children - Melanie J. Bonner, Jack W. Finney, Lisa McDaniel, Scott Grafton, and Charles Gulotta, Virginia Polytechnic Institute and State University.
24. Quality of attachment as a predictor of parental visitation when an infant or young child is hospitalized - Jane R. Robinson, Case Western Reserve University.
25. Characteristics associated with child limit setting sleep disorders and partial arousals - Natalie C. Frank, University of Georgia; Anthony Spirito, Brown University and Rhode Island Hospital; Judith Owen-Stively and Mark Arrigan, Rhode Island Hospital; and Todd Benjamin, Syracuse University.
26. Parental distress and coping in the pediatric intensive care unit - Kim W. Hamlett, Annette Selinger, Lisa Walker, Colleen Nolan, and Risa Hayes, University of Virginia Health Sciences Center.
27. Psychosocial outcomes among long term survivors of childhood cancer - Judith W. Grant, Thelma Maldonado, Kimberly Stocker, and Clementina Geiser, The University of Texas Health Science Center at San Antonio.
28. Psychological dimensions of parent remembrances of neonatal extracorporeal membrane oxygenation - Susan Epps, Alfred I. duPont Institute.
29. The effects of growth hormone treatment on anxiety and behavior in short stature children - Beth Mitchell, Cheril Clarson, and Doris Doan, Children's Hospital of Western Ontario.
30. Behavioral adjustment in survivors of acute lymphoblastic leukemia - Maru Barrera and Brenda Spiegler, The Hospital for Sick Children, Toronto, Canada.
31. Exploring the predictors of children's behavioral distress during painful electrodiagnostic procedures - Samuel R. Hackworth, University of Arkansas for Medical Sciences and Arkansas Children's Hospital; Robert J. McMahon and Ross M. Hays, University of Washington.
32. Adherence to medical regimens in pediatric asthma - Marianne Celano, Robert Geller, and Keith Phillips, Emory University School of Medicine.
33. Neurodevelopmental sequelae of bone marrow transplantation in childhood: Two case illustrations of identical twins - Mary Ann McCabe and Helen Crowe, Children's National Medical Center and George Washington University School of Medicine and Health Sciences.

34. The relationship between psychosocial factors and coping with painful medical procedures - Adina J. Smith, Joseph T. Pate, Ronald L. Blount, Georgia Panopoulos, and Lindsey L. Cohen, University of Georgia.
35. The relationship between childhood medical experiences and adult functioning in medical situations - Joseph T. Pate, Jr., Adina J. Smith, Ronald L. Blount, Georgia Panopoulos, and Lindsey L. Cohen, University of Georgia.
36. The relationship between coping and attributions in children with cancer - Natalie C. Frank, Ronald L. Blount, Ronald T. Brown, Sheila Tucker, and Lori Morgan, University of Georgia.
37. Environmental factors influencing weaning from a ventilator in a young child - Kathleen L. Lemanek, Kathleen Zanolli, Michael Vujnovich, Becky Todd, and Janet Kissinger, University of Kansas.
38. Illness narratives: Discursive constructions of self in pediatric oncology - Rebecca R. Kameny and David J. Bearison, The Graduate School and University Center of the City University of New York.
39. Sibling visitation in the neonatal intensive care unit: Staff attitudes and recommendations - Elaine C. Meyer, Karen F. Kennally, Effie Zika-Beres, Erny Kilis, and Alissa Levy, Brown University and Women & Infants' Hospital.
40. Parental perspective: What supportive interventions are most important in the pediatric intensive care setting? - Elaine C. Meyer and Martha A.Q. Curley, Children's Hospital of Boston and The Linda Pollin Institute, Harvard Medical School.
41. Academic adjustment among children receiving growth hormone therapy - Todd C. Ognibene, David E. Sandberg, Barbara Shine, and Wanda Grundner, Children's Hospital of Buffalo.
42. Feeding and eating problems in juvenile rheumatoid arthritis: Relationship to disease severity and caregiver stress - Julie L. Stucke, Thomas R. Linscheid, Robert M. Rennebohm, The Ohio State University and Children's Hospital; Karla Jones, Diane Chitty, and Kathy Kirkpatrick, Children's Hospital, Columbus, OH.
43. Influence of growth hormone therapy on aspects of family functioning - Caroline M. Fung, David E. Sandberg, Barbara Shine, and Wanda Grunder, Children's Hospital of Buffalo.
44. Predicting children's postoperative pain: The role of presurgical expectations - Tonya Mizell and Dennis Drotar, Case Western Reserve University.
45. Psychosocial adjustment and coping among children with insulin-dependent diabetes mellitus and their siblings - Michael B. Danovsky and Rod A. Gragg, Brown University School of Medicine; Martha U. Barnard, Michael A. Rapoff, Joni S. Padur, and Wayne V. Moore, University of Kansas Medical Center.

46. Participants' appraisal of the NCGS psychological substudy: Results of the exit survey - P.T. Siegel, R. Clopper, C. Stoppani, and B. Stabler, Wayne State University, SUNY at Buffalo, Genentech, Inc., and University of North Carolina, Chapel Hill.
47. Verbal regulation of overactivity, impulsiveness, and participation by children with ADHD - Lesli Bucher, Amy Wagner, Elizabeth H. Rutz, Debra Mowery, and Trevor Stokes, University of South Florida.
48. Moderating the threshold for report of pain by a child with leukemia in remission - Trevor Stokes and Debra Mowery, University of South Florida.
49. Behavior management of children's seizure behavior: Guidelines for primary care providers - Brett R. Kuhn, Keith D. Allen, and Mark D. Shriver, University of Nebraska Medical Center/Meyer Rehabilitation Institute, Omaha, NE.
50. Education and support groups for teens with diabetes: Which teens benefit? - Caroline L. Elder, Linda M. Harvey, Jeanne Bubb, Peggy Greco, Michael A. Harris, Jeanine Williams, and Tim Wysocki, Washington University School of Medicine and Nemours Children's Clinic.
51. Effects of the IHDP on CBCL subscale scores: A comparison of intervention and follow-up groups - Michael S. Williams and Susan L. Crowley, Utah State University.
52. Cognitive-Behavioral intervention for vocal cord dysfunction in pediatric patients - Vanessa K. Jensen and Paul C. Stillwell, The Cleveland Clinic Foundation.
53. Family therapy with chronically ill adolescents: What do they think about what we're doing? - Michael A. Harris, Peggy Greco, Tim Wysocki, Caroline L. Elder, and Neil H. White, Washington University School of Medicine and Nemours Children's Clinic.
54. Impact of IHDP on maternal depression and infant fears at 24 and 36 months - Susan L. Crowley, Utah State University.
55. Diabetes in adolescence: The effects of group intervention of knowledge, adjustment, and adherence - Beth Mitchell, Melissa Brouwers, and Elizabeth Kerr, Victoria Hospital, Ontario, Canada.
56. Improvements in asthma knowledge, management, and confidence following a brief inpatient education program for parents of children with asthma - E. Jane Bradley, Maureen Johnson, and Dee Dee Brown, Victoria General Hospital, Victoria, B.C.
57. Shaping glasses use in an 18-month old: "Dickie" revisited - Judith R. Mathews and Jennifer L. Miner, University of Nebraska Medical Center/Meyer Rehabilitation Institute.

# **POSTER PRESENTATIONS**

FRIDAY APRIL 21 - 11:30 AM - 1:30 PM

(Please note: The number beside each entry indicates the poster board number for the presentation.)

1. Injection site location tools among children with insulin dependent diabetes mellitus - Linda Monaco, Cheryl Wilson, Gary Geffken, Keith Ewell, Kathryn Moore, and Janet Silverstein, University of Florida.
2. Development of an empirically based role-play measure to assess the problems and coping strategies of parents of children with CF - Valerie E. Tolbert, Alexandra L. Quittner, and Mary Jean Regoli, Indiana University.
3. Relationship of parenting behaviors to treatment adherence and behavioral competence in children with cystic fibrosis - Gretchen Browne and Alexandra L. Quittner, Indiana University.
4. Assessment of the child with AIDS: Filling the gap - James W. Sturges, David Reitman, Joyce Cole-Beamon, and Kim Ujcich, University of Mississippi Medical Center.
5. Cost effective, international and interactive promulgation of a pediatric psychology training program - James W. Sturges and Ronald S. Drabman, University of Mississippi School of Medicine.
6. Use of the Wide Range Assessment of Memory and Learning in diagnosing ADHD in children - Wayne Adams, Elizabeth deLancey, and Christopher Hyde, Alfred I. duPont Institute.
7. Chronic and reactive obesity in adolescence: Medical and psychological factors - D.V. Sheslow, S.G. Hassink, and E. deLancey, Alfred I. duPont Institute.
8. Self-concept of obese females: Maternal weight as an influencing factor - E. deLancey, A. Fink, D.V. Sheslow, and S.G. Hassink, Alfred I. duPont Institute.
9. Validity of test observations for children with attention-deficit/hyperactivity disorder: Preliminary results - Joseph J. Glutting, University of Delaware; Paul M. Robins and Elizabeth deLancey, Alfred I. duPont Institute.
10. Developmental changes in psychological functioning in childhood obesity - D.V. Sheslow, S.G. Hassink, E. deLancey, and C. Sherman, Alfred I. duPont Institute.
11. Prediction of psychological adjustment of school-age children with HIV - Kristin Riekert, Case Western Reserve University and Lori Wiener, National Cancer Institute, Bethesda, MD.

12. HIV risk in psychiatrically diagnosed adolescents - Michael Danovsky, Larry Brown, and Nancy Beausoleil, Rhode Island Hospital and Brown University School of Medicine.
13. Family functioning and behavioral adjustment in children with leukemia and their healthy peers - Ronald T. Brown, Julie A.B. Morris, Ronald L. Blount and Natalie Frank, Emory University School of Medicine and The University of Georgia.
14. The resiliency of adolescents with clefts - Lisa M. Buckloh and Kathleen L. Lemanek, University of Kansas; Joyce Tobiasen and John Hiebert, University of Kansas Medical Center; Linda Housh, The Children's Mercy Hospital; and Steve Hupp, University of Kansas.
15. Adaptational processes in children with asthma - Sarah Trane, Kathleen Lemanek, and Steven Hupp, The University of Kansas.
16. Adolescents' self-disclosure about diabetes to friends - Ann Muir Thomas, University of California.
17. Unintentional injury and alcohol use in adolescents - Deborah Rasile, Mark Arrigan, and Anthony Spirito, Rhode Island Hospital/Brown University School of Medicine; and Lyn Vinnick, Long Island Jewish Medical Center/Albert Einstein College of Medicine.
18. A concurrent and longitudinal examination of substance use for African-American adolescents in EMR special education - Sonja L. Frison, Trudi L. Venters, Robert L. Stevens, and Jan L. Wallander, University of Alabama at Birmingham.
19. HIV knowledge and risk-taking behaviors in adolescents with mild mental retardation - Trudi L. Venters, Robert L. Stephens, Sonja Frison, and Jan L. Wallander, University of Alabama at Birmingham.
20. Predictors of a young woman's pregnancy decision: Application of the theory of planned behavior - Charles S. Gulotta and Jack W. Finney, Virginia Polytechnic Institute and State University.
21. Adherence, school absence, and psychosocial development of children with asthma - Dody Lilly and Jack W. Finney, Virginia Polytechnic Institute and State University.
22. HIV disease, children's cognition and behavior, and mother's mental health - Wanda F. Grant and Claude Ann Mellins, HIV Center for Clinical and Behavioral Studies, New York State Psychiatric Institute and Columbia University.
23. Behavioral and medical problems in children: Assessment of family impact - Dan Edwards, Suzanne Bennett Johnson, Eileen B. Fennell, and Walt Cunningham, University of Florida.
24. Utilization of pediatric health care services in a low-income, urban population: Relationship to family stress and child behavior problems - G.A. Banez, W.B. Schuman, S. Overstreet, and E.W. Holden, University of Maryland at Baltimore.

25. Socioeconomic status and race as risk factors to cognitive functioning in children with diabetes - S. Overstreet, C. Holmes, W.P. Dunlap, and J. Frentz, University of Maryland at Baltimore.
26. Quality of life in youths with cystic fibrosis - Deborah Schenck, Susan Dandes, Alan Delamater, Kunjana Mavunda, and Robert McKey, Jr., University of Miami School of Medicine.
27. Attention deficits and dissociation: Findings with the Children's Perceptual Alteration Scale (CPAS) - M. Evers-Szostak, Durham Pediatrics, Durham, NC.
28. A model for multidisciplinary evaluation of families seeking pre-symptomatic genetic testing of children - W. Hobart Davies, Christine Sauer, LuAnn Weik, and Lois Magnussen, Children's Hospital of Wisconsin and the Medical College of Wisconsin.
29. Parent responses to pediatric headache - Barbara A. Wall, E. Wayne Holden and Jack Gladstein, University of Maryland School of Medicine.
30. Some guidelines for administration of the Bayley II with a clinic-referred population - Theresa P. Shank and Theresa C. Gannon, The Kennedy Krieger Institute, Baltimore, MD.
31. Developmental delay in a non-referred, "at-risk" population - Theresa P. Shank, Mary L. Leppert, Bruce Shapiro, and Arnold Capute, The Kennedy Krieger Institute, Baltimore, MD.
32. Psychological adjustment and adaptation of siblings of children with AIDS and their mothers - Elena Bettoli-Vaughn, Ronald T. Brown, Josephine Brown, and Kevin Baldwin, Emory University School of Medicine and Georgia State University.
33. Improving ADHD children's recall of and selective attention towards visual stimuli using novel computerized environments - Lois Rosenberg Kugler, Allison B. Campbell, Peter Noye Kugler, Kevin Shockley and Anthony Morris, Radford University.
34. Evaluating pediatric psychology consultation services: An example - James R. Rodrigue, Russell G. Hoffmann, Arista Rayfield, Celia Lescano, Wendy Kubar, Randi Streisand, and Christine Banko, University of Florida.
35. Illness duration, hospitalization, and degree of life-threat as possible predictors of understanding children's illness concepts - Susannah Kury and James R. Rodrigue, University of Florida.
36. Social functioning, peer relations, and internalizing/externalizing problems among youths with sickle cell disease - Christine Banko, Randi Streisand, James R. Rodrigue, Amos Kedar, University of Florida; Paul A. Pitel, Nemours Children's Clinic.
37. State efforts to identify and serve maltreated children with disabilities: A follow-up - L. McElreath, B. Bonner, and S. Thigpen, University of Oklahoma Health Sciences Center.

38. Normative data for the Diabetes Independence Survey - Parent Version - Tim Wysocki, Nemours Children's Clinic; Patricia A. Meinhold, Ohio State University; Alexandra Taylor, Nemours Children's Clinic; Brenda S. Hough, Michigan State University; Martha U. Barnard, University of Kansas Medical Center; William L. Clarke, University of Virginia; B. Jayne Bellando, New Orleans Children's Hospital; and Michael J. Bourgeois, Texas Tech University Health Sciences Center.
